

RESOLUTION 7

“Attorney's Liability”

FICPI, the International Federation of Industrial Property Attorneys, broadly internationally representative of the free profession in more than 40 countries at its World Congress in Cannes from June 26th to July 1st, 1988,

having studied the role of the profession of Industrial Property Attorneys in a changing world

considers that

as the field of our legal advice becomes more complex and the existing unlimited personal liability is an illusion,

recommends

a statutory limitation of liability be made available to the profession.
