CF Project	CF 112 TMview NO integrations
Short description	<p>The purpose of TMview is to render all trademarks in searchable registers, facilitating the work of examiners and usage of economic operators and end users. This project aims at integrating all remaining offices into TMview web application after the phase 1 went live on the 13/04/2010. It follows an independent flow in parallel to the development of the new versions of TMview. The second version's purpose is to improve TMview V1 on two main aspects: add more functionalities and obtain more data from the offices.</p>
WG Members	<p>Currently, no Working Groups foreseen for this project in 2012.</p>

STRATEGY

- Define your market needs: object to be protected, list of goods/services, territories and time needed.
- Communicate with your IP attorney your main concerns.
- Define your immediate requirements and your long term ones. They can be found in a global strategy for a better CERTAINTY and EFFECTIVE COST (countries, goods and services, logos)
- Balance RISKS with COST in searches. IP attorneys would rely on other services, such as external ones, if needed.
